Hi, Peter.

I think you may have counted me as one of your 18 folks already signed up for the tour since I raised my hand at the last meeting. However, it turns out that I'm not going to be able to attend. I just wanted to free up a spot in case you thought I would be there.

Thanks, and have a great weekend!

Cynthia

Subject: FW: ARSG Mine Remediation Tour

Dear Stakeholders – At our meeting on Wednesday, the group decided to schedule the mine remediation tour for Saturday, June 27th as noted in previous emails. There was concern that the late May snows might not adequately melt off to see some sites. If some of the high elevation sites are inaccessible, we will simply stay at lower elevations. The snow shouldn't affect anything we would see in Cement Creek.

Again, please let me know if you are interested in going. We are planning to meet at 8:45 at the Silverton Visitors Center (on the right, just as you come into town). We will start by going up Mineral Creek. We are looking into providing box lunches for a small fee, and will probably eat them outside somewhere in Silverton where there is access to bathrooms.

We plan to limit the tour to no more than 40 people. I already have about 18 names. We will want to consolidate people into as few vehicles as possible. Four wheel drive will be needed, but the roads are not especially rough.
